<p>Timeline / Meeting Updates</p>	<p>Regular team meetings will be reinstated as these projects move from bid and award to the construction phase. More details to follow through individual communications and meeting invitations.</p>
<p>Next Update</p>	<p>We anticipate issuing the next update in mid-April.</p>
<p>Project Status Report</p>	<p><u>Project Overview:</u> Both projects came in favorable to the published estimates. Representatives from FOD, the Construction Manager, and the Architect / Engineer are evaluating the bids, alternates, EDGE and LEED requirements, and performing responsibility/scoping reviews with the apparent low bidders for each trade. We anticipate meeting with the appropriate decision makers and requesting approval to move forward with the contract award process in the next week or so.</p> <p><u>SAS / LAPG:</u> The Early Site Electric project commenced work February 26. The project is approximately 20 percent complete.</p>
