

LABORATORY RECYCLING

FLATTENED CARDBOARD

GLASSWARE

Triple-rinse and remove the label.*

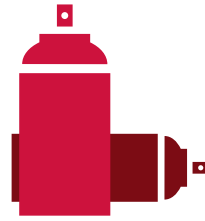

Collect rinsate for disposal.

Some glassware is NOT recyclable

PLASTIC JUGS & BOTTLES

Triple-rinse and remove the label.*

DE-PRESSURIZED (AEROSOL) CONTAINERS

DO NOT EMPTY OLD CONTAINERS

contact Environmental Health & Safety to arrange for proper disposal of these items.

METAL CONTAINERS

Triple-rinse and remove the label.*

Remove the lid, indicating the container is empty.

Containers that can not be cleaned to EPA standard should be disposed through EHS

**All rinsate becomes hazardous waste*

EHS CHEMICAL REDISTRIBUTION PROGRAM

Many materials that laboratories submit as chemical waste are actually surplus chemicals that could be reused. To assist in waste reduction, the Environmental Health & Safety Chemical Management Program accepts both opened and unopened containers of unwanted but usable chemicals from laboratory and service areas throughout campus. The Chemical Management Program takes the unwanted chemicals and redistributes them, free of charge, to other Ohio State University operations.

Register chemicals at the EHS website ehs.osu.edu/
